Bethlehem, 22/6/26

Dear Parishioners of Our Lady Queen of Poland Parish in Brzoza:

We would like to express our gratitude for the donation we received to help our children; it is a tremendous help to us, especially given the current situation – which we hope will stabilize – as we have practically no local support.

The children are doing very well; the school year is drawing to a close, and they are preparing for the end-of-year event, where they will present songs, a short play with a moral lesson, and different dances.

They have been helping with the vegetable garden project. Not only do they enjoy the activity and watching the vegetables grow, but they also get to eat what they have planted. Although the garden is small due to limited space, this activity is truly beneficial for them.

In August, we hold our "Little Shepherds of Fatima" summer school, featuring various morning activities such as crafts, cooking workshops, papier-mâché, games, drawing, gymnastics, and more. It requires a great deal of preparation and many helpers to carry out activities with each child, as some of them cannot manage tasks on their own. It is a truly intense period of work, yet it brings us great joy to see their happiness.

We hope that one day you might visit our mission and meet the children. We are praying for you from the Holy Land!

M. de Roncesvalles

Local superior
